For everything there is a season

and a time . . .

"For everything there is a season, and a time for every matter under heaven; a time to be born, and a time to die; a time to plant, and a time to pluck up what is planted; a time to kill, and a time to heal; a time to break down, and a time to build up; a time to weep, and a time to laugh; a time to mourn, and a time to dance; a time to cast away stones, and a time to gather stones together; a time to embrace, and a time to refrain from embracing; a time to seek, and a time to lose; a time to rend, and a time to sew; a time to keep silence, and a time to speak; a time to love, and time to hate; a time for war, and a time for peace.  
What gain has the worker from his toil?"

At Perkinson there is a time to tear down

and to build again

Old, yet ever new---the living organism that is Perkinson must slough off a part of its past to give way to the new. Bennett Hall fell to the splendor of Dees Hall, Fahnestock to the new business education building. Two new dormitories, Owen Hall for men and Moran Hall for women expanded the boundaries far outside the old, familiar quadrangle. And still it is a time for growth, for planting anew to meet the ever changing challenge to tomorrow. A time to plant and a time to pluck up that which is planted--new life, new growth, and a continuing harvest of individuals to make their contributions to the world's development.

## A time for working and playing

. . . labs, lectures, homework, clubs-- a time to work . . . And Perk students turned out with a ready will . . . and the determination to improve this year over last. But just as they worked, so they played. Intramural activities, extramural sports, dances, parties, and just plain goofing off-- they worked hard at work, but they worked just as hard at play.

## A time for weeping and laughing

8

Pain, dejection, grief-- we suffered loss with heavy hearts.

Lost games--- broken dates--- failing grades---  
There was compassion, when we suffered for others. It was a time for weeping.

But where suffering is prolonged, it becomes despair, and despair is foreign to the mood at Perk. And so they laughed . . . . and laughed  
. . . . for good reason and for no good reason  
. . . . for there was a time for laughter.

9

and the in-between times of reflection  
and remembrance of times past . . . the reality of times present . . . the anticipation of times yet to come . . .

For we are aware---aware of today--aware that we are the buds of our own future . . .

For our personal goals, the answers we seek, the crises we face--these are the nucleus of the identities we are forming for ourselves. And personal goals are elusive, capricious, changing even as we touch them. And so we build on time, on ourselves for that is all we have.

## A time for searching and losing

To fight the spreading and ever-contagious disease of apathy, Perk students planted the seed of involvement in the midst of everything. Everyone was urged to involve himself in some activity and be counted. This involvement could be loud at games, pep rallies, and other activities, but it could also be silent during studies, projects, and concentration in work. As the seed of involvement took root and slowly blossomed, Perk students became more engrossed with their environment.

## To search and then to find

Everyone, regardless of age, is searching for something. On the JC campus it may be the freshman searching for the right room the first day of classes or the sophomore searching within himself to determine what he truly wants to do with his life. Not everyone finds what he is looking for immediately, but, somehow and somewhere along the road, the majority finds a happiness that was unexpected and does not continue the search. At JC the search for knowledge and skill, though not always quenched, is nurtured and the student finds at least a part of his ultimate goal.

Look for room numbers.

Where's that book?

Success. . .sometimes found

other times unheard of.

With the yearly attack of spring fever the campus becomes a playground.

## For laughter and for tears

"Laughter is the best medicine," and there are few people who will disagree. If man can laugh at himself there is less embarrassment. If he laughs with others he finds companionship and a great amount of happiness. JC is fortunate to hear the ring of laughter echo through the halls. Whether it is a giggle, a chuckle, or a full roar of laughter, people on campus realize that the sound of laughter is a beautiful sound.

Graduation--laughter or tears?

Students get the grades . . .

Teachers have to grade.

Everyone has found his own time for tears but no matter how many people cry or how often, tears can not be described in one word. To some, tears are loneliness; the guy in Vietnam who receives no mail. Or they may be the expression of sorrow; a death or tragedy; the family that moves away from longtime friends. On the other hand they may be the expression of pride, happiness, or satisfaction; a parent or student at graduation; a mother at her child's wedding; or man when he finally attains his ultimate goal. Whatever, tears are the expression of complete emotion.

## Always for work

Work doesn't end with class--there is always homework.

It would be ridiculous to even think that there is no work involved when one speaks of school, in any form. There IS work, really tough work and often in large doses, but it can be done. It is a well known fact, however, that to do nothing but work makes a person very one-sided and his life very dull. Everyone knows the old saying "all work and no play...", so after man has worked he sets aside time to play. Playing on campus can be and is fun. It may even be wondered whether or not playing is even more prevalent than working.

On the beach or in the cafeteria it's playtime.

Even a photographer finds time to play.

## And we find time to play

## Time to speak

Potpourri contestants Mary Barnes, Charlotte Johnson, and Theresa Humphreys.

Class report by Jeanne Ladnier.

The best of diplomats knows when to speak so he takes advantage of that time. He also knows when silence is more beneficial and is silent. Words and actions may bring points across but it has been said that "silence is golden" and it can also convey ideas. It is a universal ideal to speak when one has something to be said and otherwise to remain silent.

All this and much, much more leads to the time of peace at JC.

## And to be silent

It's what we're all looking for--someday we'll find it.

## Time for PEACE

# ACADEMICS

Whether in class or out of class every student experiences that last minute rush.

Outside the usual scholastic academics of any school, JC has a quite varied Vocational/Technical training program that allows the student to train for careers in....

## Computer Technology

## Surveying

## TV Production

Taught by Mrs. Betty Oswald and Mr. McRaven this is a favorite course of many students.

Students get experience both in front of and behind the cameras in many situations.

## Secretarial Training

Using modern equipment the students are trained in the use of the many differ-

ent types of office machinery as well as the necessary skills.

## Electronics

This year students had the unique experience of working with student teachers.

Students work individually and in teams using their own imagination and skills.

Under supervision of excellent instructors they use the best equipment available for various experiments.

## Sheet Metal

Students are trained in the use of measuring instruments, machine processes, welding cutting, and brazing.

## Welding

Through actual laboratory work students learn to utilize the latest equipment and techniques of welding.

## Pipefitting

This course teaches the basic knowledge and skills necessary to enter the pipefitting trade.

## Auto Mechanics

This program prepares students in the basics of auto mechanics.

## Nursing

The nursing program offers training for men and women in practical and registered nursing.

Students Theresa Humphreys, Tricia Jarvis, and Pat Graves present a PTK program.

## X-Ray Technology

#### DEDICATION

Devotion to the development of young minds and to the molding of strong characters is one of the many ways to describe Mrs. Francesca S. Howard.

To her we wish to dedicate the 1971 edition of THE BEACH-COMBER.

Through association with Mrs. Howard our knowledge has been magnified, our understanding has been deepened, and our interests have been broadened.

In her capacity of English Department Chairman, instructor in English Literature and Composition, and as the advisor to both THE COMMUNIQUE and MATHOMS, Mrs. Howard has done an outstanding job.

Her endearing qualities of honesty, wisdom, perseverance, generosity, fair mindedness and friendship shall be remembered by her students always.

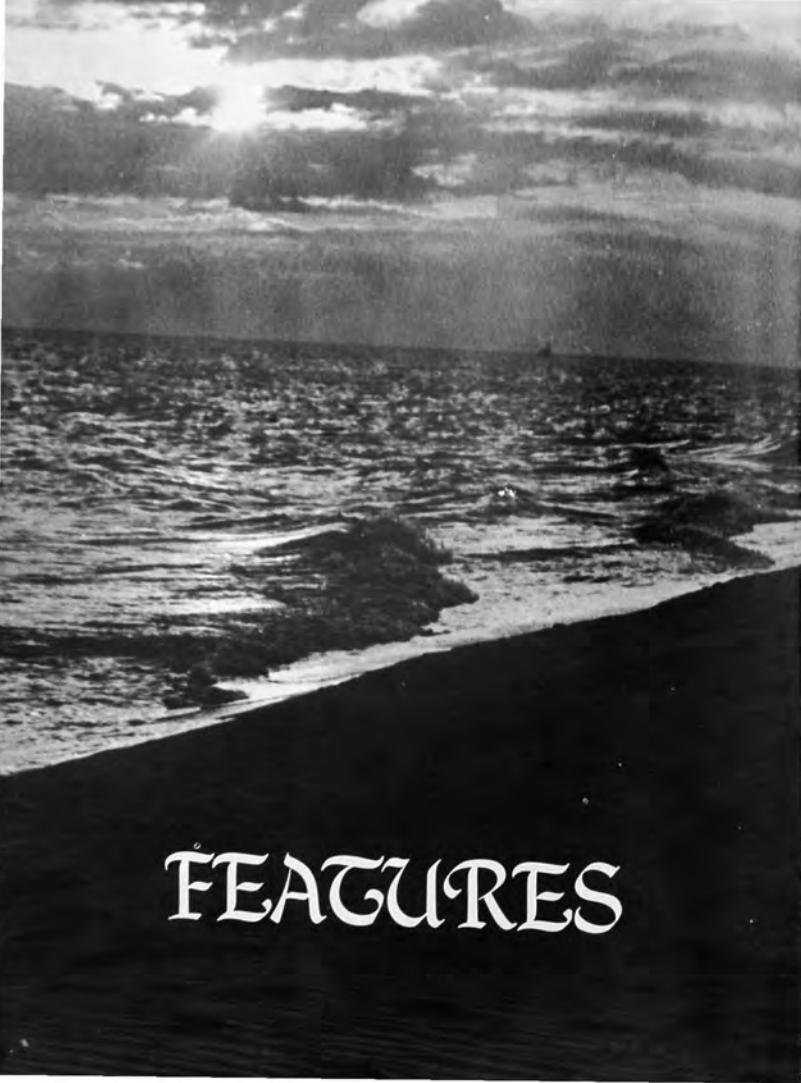

We wish to express our appreciation, Mrs. Howard, for your many contributions. Thank You!

Every teacher participates in the classroom but Mrs. Howard was one of the few who was able to participate in school functions (Grub Day) and still command the respect of the students.

# ACTIVITIES

Mrs. Burkett, Mrs. Parke, Bobby Robertson and Samothrace girls discuss plans for the Homecoming display.

Speaking of displays, did you go up to the Skylight Gallery this year? There is always an abundance of student "art" to be seen.

This year some of the girls on campus taped a fashion show.

The choir takes a break before their Homecoming performance.

The Who's Who dance on Jan. 15 was held in honor of Beauty Pageant winners, campus and American Jr. College Who's Who winners and the Hall of Fame. Music was by the Village Green.

Early in December Phi Theta Kappa Sponsored a Dean's List Reception and Christmas Party. A psychiatrist from the Gulfport V.A. was the guest speaker.

Exhibit at Edgewater

Samothrace plans their Christmas float.

Speech Potpourri winners: Glenda Mullen, Walter Gulley, and Marie Mastromarino.

JC choir performs at Edgewater.

The Student Workers' Christmas Party.

Dr. Mulkana's lab class in action.

What is a student publication made of? A great deal of paper, ink, art work, pictures, much work on the part of staff members and editors, and the often-needed encouragement of our faculty sponsors. The 1971 TRIDENT staff wishes to thank everyone who helped. We hope this book will enable you to share some of our happier memories.
