MEDICAL ANALYSIS TELEMEDICINE

Partnering with Kareo/Chiron Health

You will soon receive an invite by text message/email to install the app. By using telemedicine, you can stay home, & stay safe during this COVID-19 crisis!

What is Telemedicine?

-Telemedicine provides remote access to medical services. Medical Analysis clients will be able to communicate and be seen remotely through this program with one of our board certified providers. In this time of uncertainty, we want to give our clients a safer alternative to health care and avoid unnecessary exposure by coming to the clinic. Don't forget, you can still use the clinic for urgent care, COVID-19 screening and COVID-19 testing.

-This service will provide acute care for allergies, colds, ear infections, UTIs, rashes, sore throat, asthma, sprains, pink eye, aches and pains, diarrhea, vomiting and much more...

-100% HIPAA compliant

Benefits:

-Stay home, stay safe and use the clinic for urgent care. Use telemedicine for everything else.

-Avoid the wait time at doctor's offices, ER or Urgent Care.

-Avoid leaving work or home

-Get a prescription called into the pharmacy

-Speak to a provider:
Mon.-Fri. 8am-10pm
Sat. & Sun. 2pm-6pm
