

EMPLOYEE AND STUDENT HEALTH CLINIC

Su n	Monday	Tuesday	Wednesday	Thursday	Friday	Sat
<p align="center">TELEMEDICINE UPDATE</p> <p>Telemedicine was implemented on a temporary basis in an effort to provide safer and more convenient access to medical care during the COVID-19 crisis. During this time, Medical Analysis provided this service at the usual client contracted fees. As COVID-19 numbers rise and students return to school as well as the approach of "Cold & Flu Season," we feel the need to continue telemedicine as an added benefit to our in-patient care during the hours of 9a-3p at the "client only" contracted rates. We will also provide "after hours" at a discounted office visit fee of \$75 to help support this service.</p> <p>Sign in at: https://provider.kareo.com/medical-analysis--telemedicine</p> <p>M-F 9am-3pm M-F 6pm-9pm - After-hours Saturday 10am-3pm - After-hours</p> <p><i>*We are currently working on credentialing to file insurance and plan to have this payment option in place soon for after-hours only. Call your clinic for more info.</i></p>						1
<p align="center">AUGUST IS BACK TO SCHOOL MONTH</p>						8
