

## MGCCC-Devices Registration Guide

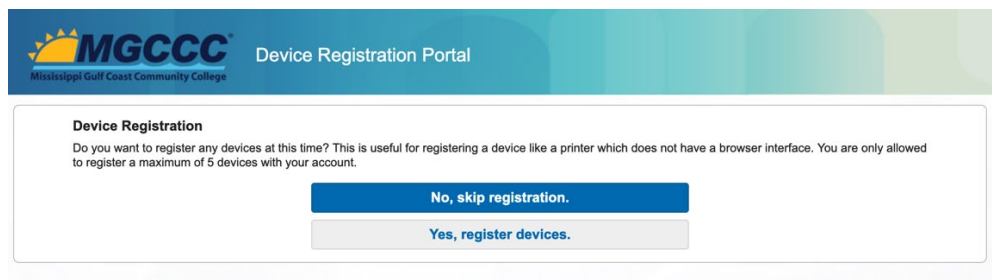

This document will guide you in registering your network devices, such as a gaming consoles, media streaming devices, or other devices that do not support the authentication method used on the “MGCCC” wireless network. After you register your devices, you will connect those devices to the “MGCCC-Devices” wireless network. All phones, tablets and computers should continue to use the “MGCCC” wireless network.

1. Visit <https://mgccc.edu/mydevices>
2. Enter your login credentials to log in.

The image shows the MGCCC Device Registration Portal login form. At the top, there is a blue header with the MGCCC logo (Mississippi Gulf Coast Community College) and the text "Device Registration Portal". Below the header, the form is titled "Welcome" and says "Sign in to register your device." There are two input fields: "Email Address:" and "Password:". Below the password field is a blue "Sign On" button.

3. Once you are logged in, click “Yes, register devices.”

The image shows the MGCCC Device Registration Portal device registration confirmation screen. At the top, there is a blue header with the MGCCC logo (Mississippi Gulf Coast Community College) and the text "Device Registration Portal". Below the header, the form is titled "Device Registration" and says "Do you want to register any devices at this time? This is useful for registering a device like a printer which does not have a browser interface. You are only allowed to register a maximum of 5 devices with your account." There are two buttons: a blue "No, skip registration." button and a grey "Yes, register devices." button.

4. Fill out the form with the device description, Device ID (MAC address), and if desired, a description. Click Add.
